

Junior School Sport 2023

Term 3 Week 7

Team	Coach	Score	Highlights	Report
6 Blue Netball	Mike Taylor	SIC 29 d Comets Black 27	Another come from behind win	Another close game with Comets saw us secure a come from behind victory. With two very evenly matched teams taking the court, Comets jumped out to a 6-goal lead by half time, with our girls taking time to adjust to the tempo. In the second half we started to find more space on the court and built some defence pressure which turned the ball over. By the start of the 4 th quarter, we were only two goals down and the team finished strongly to secure the two goal win, with some cool heads closing out the final minutes of the game. The team should be very proud of the way they played and showed great character in never giving up. A week off to work on our starts to games and into the Grand Final. Well done !!
5 White Netball	Tahlia Jolly	SIC 23 d East Adelaide 22	The teams grit and determination to claw their way to a win	This was an outstanding game played by an amazing bunch of Year 5 students that had the crowd with their hearts in their mouths towards the end. An even first quarter against a team they had not defeated had all happy with their efforts, but we could sense there was more to come. Breaking out to a lead at half time courtesy of the teamwork of Thomas and Sukti in goals and the defensive strength of JT and Nick. With Thomas unwell, changes were needed, which resulted in 6 other players changing position to balance the team. I was so impressed with Frankie moving out of C and straight into intercepts in GD. Alice, Makayla, and Mila kept working to place pressure on the opponents to give us chances to get the ball into the goal circle. East Adelaide started to get closer to us, but the team held their nerve. Such a wonderful display of netball by a young team playing in the top division against a team of Year 6 students. This team has now progressed to the Preliminary Final with the chance of meeting our 6 Blue team in the Grand Final.
